

Laminate floors

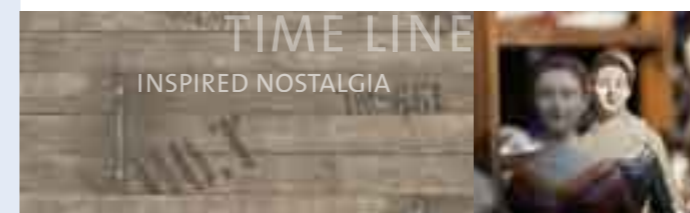

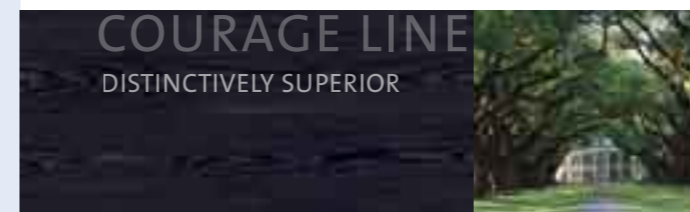

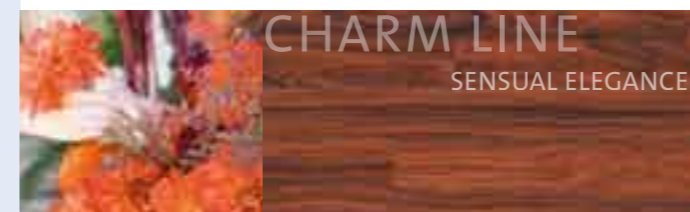

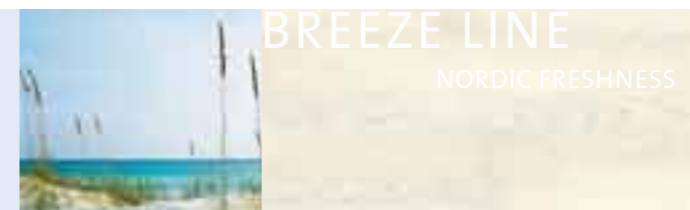

Enjoy the
moods

CONTENTS

The name of ter Hürne is a synonym for fascinating, high-quality floors – for people with corners and edges who like to assert themselves and place high demands. We regard floors as a crucial design element in living spaces where people can live out their individuality and uniqueness. They are therefore a stage for life in the truest sense of the word. We hope to express this uniqueness of life with the natural appearance of the decors and the nuanced surfaces of our products.

Our ranges are just as multi-layered as the life of every person is unmistakable and richly faceted. Our tradition is rich in wood competence and allows us to create high-quality and innovative products on the basis of cutting-edge technologies. With a combination of passion and fascination, we stand for a total dedication to quality in all that we do, because that is our trademark.

Colour worlds and moods

So that you can easily find your way through the assortment, the ter Hürne laminate floor range is divided into six product lines according to colour and feel:

Product lines

BREEZE LINE	bright & fresh decors	6
VITALITY LINE	beige brown & friendly decors	14
CHARM LINE	red brown & warm decors	26
COURAGE LINE	dark & powerful decors	34

BREEZE LINE

NORDIC FRESHNESS

OAK GREY

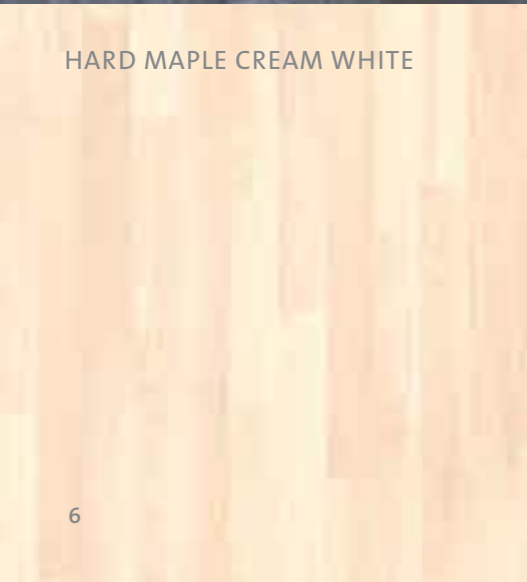

OAK ORNAMENTAL WHITE

ENDLESS HORIZON, BITING FRESH SEA AIR, VAST EXPANSES, CLEAR PEACE AND RELAXATION IN THE MILD LIGHT OF A NORDIC SUN

The landscape of Scandinavia is calm and peaceful and yet also conveys a joie de vivre that forces its way through the long winter nights: rooms bathed in light, gentle, bright pastel shades, sky blue and white and soft shapes all characterise this attitude

to life. Straightforward and honest, timeless, uncomplicated and practical, the Nordic style radiates its refreshing lightness. Anyone who chooses these furnishings is searching for quiet and peace, wants to recharge his batteries and is balanced and playful. The bright, relatively cool colour shades of the BREEZE LINE – the decors hint quite naturally at the Nordic white-grey-blue scale and make their own particular statements in this typical ambience.

VITALITY LINE

NATURAL VITALITY

OAK SIERRA BROWN

HARD MAPLE POWDER BEIGE

CLOSENESS TO NATURE, SIMPLE COUNTRY LIFE, FRESH AIR, SUN, YOUR OWN GARDEN, A CHEERFUL BUNCH OF MEADOW FLOWERS

The mood of “natural vitality” is, in the truest sense of the phrase, down to earth and original. The straightforward, practical “country-cottage” style, gentle natural colours, but also accents with rich, warm signal colours – carmine red or fresh green – characterise this world. Whether plain or

romantically intricate, this scenario always radiates warmth, harmony and cheerfulness. The people who live here are close to Nature, genuine and authentic, but also dreamy and idealistic. They do not rush to follow trends, but are content in themselves and in their world.

The gentle, warm colours and the decors with a natural appeal of the VITALITY LINE are the perfect complement to this down-to-earth lifestyle.

GRACE

PLUM BROWN RED

ORNAMENTS AND PLAYFUL FORMS, DEEP FEELINGS, RUBY RED, MODERATE PINK SHADES OR FUCHSIA, SENSUALITY AND ROMANCE

The mood of “sensual elegance” is emotional and optimistic, with a generous helping of romance. It is dominated by red colours – both bright, vivid ones and in pastel shades. This style is demanding, with every detail

thought through and carefully presented. Both classic and playful at the same time, this world is defined by floral decors, flowing transitions, soft forms and fragrances. Anyone living here is an emotional person, who loves artistic compositions, and likes to discreetly create an impression, to spoil and to beguile.

The reddish, deep and warm colour worlds of the CHARM LINE create the perfect backdrop for this attitude to life.

COURAGE LINE

DISTINCTIVELY SUPERIOR

CASUAL DOMINANCE, PASSIONATE ASSERTIVENESS, COMPETENCE AND STRONG VALUES

The “distinctively superior” world is defined by contrasting elements. It lives off strong colours, tending towards black, beige and brown.

Classic, sophisticated and discerning – this style radiates a sense of dominance and lifestyle. The people living here will enjoy life, will know exactly what they want and will set their own accents – strong, steadfast and dynamic. Unadulterated and forthright, the colours and the decors of the COURAGE LINE emphasise this succinct style.

TIME LINE

INSPIRED NOSTALGIA

PLEASURE, TOLERANCE, MEMORIES, LOVE OF DETAIL, JOY OF COLLECTING, PASSION, TRACES OF A USEFUL LIFE

The world of “inspired nostalgia” presents an original and essentially undefined lifestyle. Souvenirs and collectors’ pieces, a lifelong dream or a slightly eccentric love affair – everything has a personal significance and stands for a particular part of a

personal biography. This mood world is absolutely individual, with a certain tendency towards nostalgia and a hint of charming originality at a high level.

The motto of the TIME LINE could easily be “Live an unusual life”. Unconventional, experimental decorators that contradict typical, classical styles express this concept beautifully.

QUALITY AND ACCESSORIES

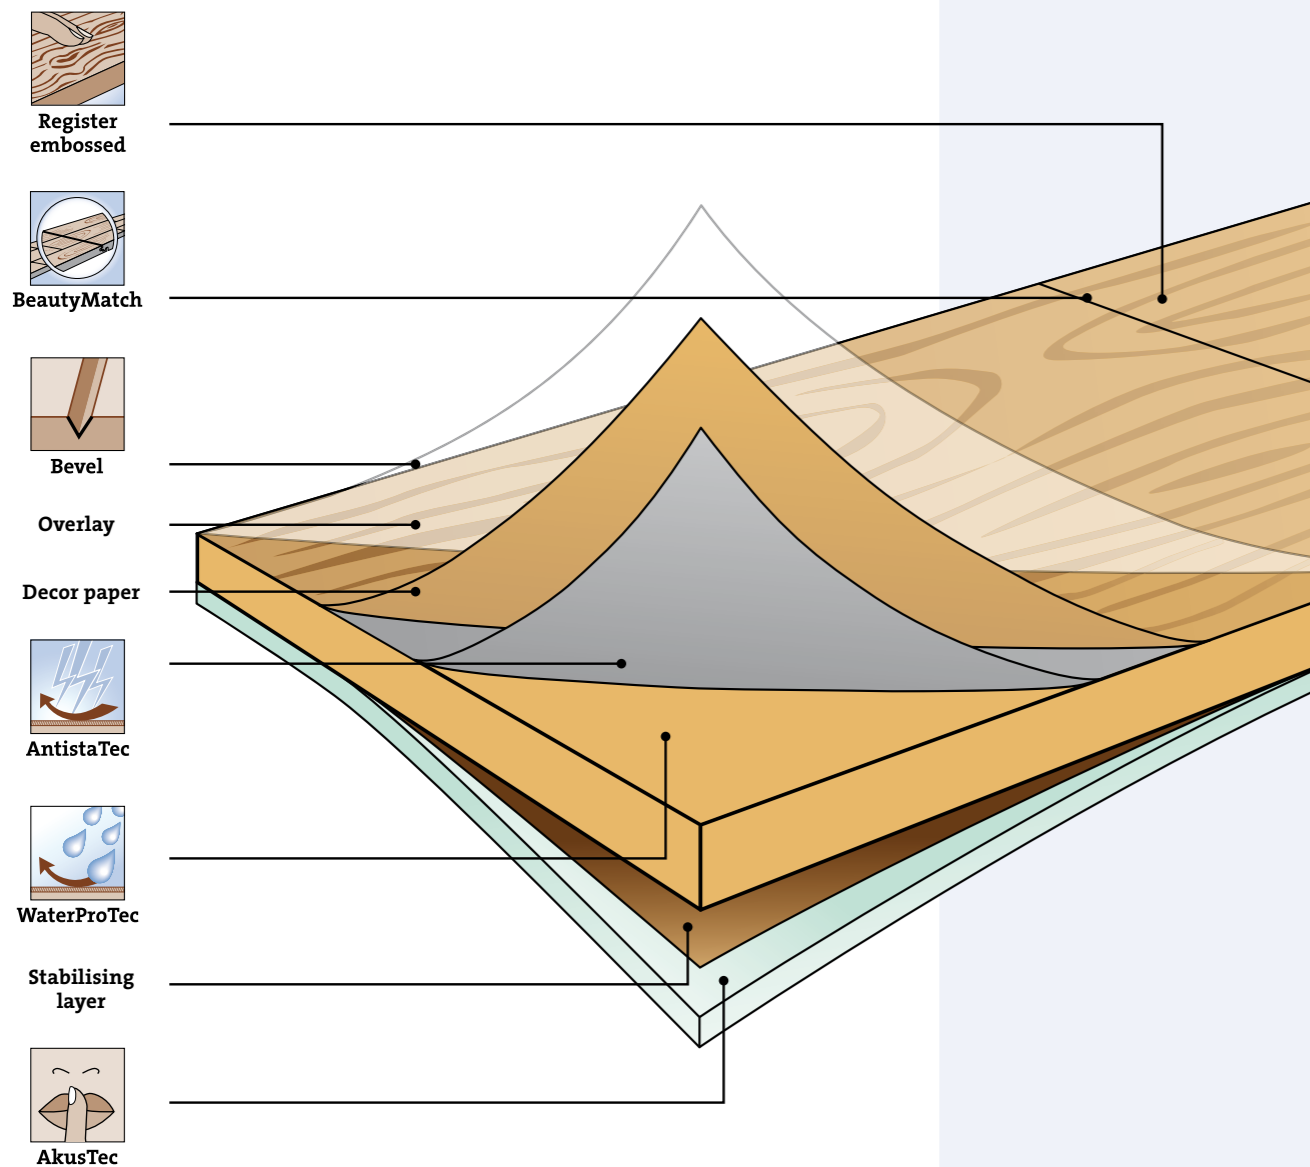

The particular charismas of the decors and colours of our laminate floors are the most visible signs of the ter Hürne quality standards. This quality is based, though, on extraordinary properties that perfect the function of the floors.

In many areas, we set new standards with patented innovations and trailblazing developments, thus maintaining the comfort, the appearance, the durability and the installation at the highest level.

Laminate floors – a multi-faceted talent with persuasive arguments

The authentic effect of a ter Hürne laminate floor can be experienced with several different senses. At every level, the complex structure features technical characteristics with practical advantages.

These visual and functional characteristics are described in more detail on the following pages.

Surfaces – structures that touch the senses

The ambience of a room is not created only by sight; touching and feeling complement the visual impression, adding a crucial element of sensuality. The various surfaces of the ter Hürne laminate floors bring out the best in every decor.

Register embossed, silk matt

Grained, silk gloss

Smooth, matt

Structured, matt

Register embossed

The tangible surface

Register embossed
Presents an absolutely identical structure to the appearance of the decor

Grained
Emphasises the natural grain of the wood decor

Structured
Supports the original look of stones and tiles

Smooth
Imitates a natural appearance with its matt look

The visible gloss

Silk gloss
Reflects the light discreetly and with specific emphases

Silk matt
Shimmers with a slight silk sheen on the surface

Matt
Represents a dampened effect

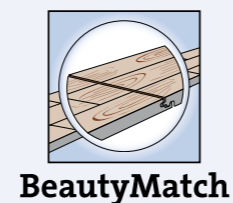

BeautyMatch – gives rooms a sense of rhythm and space

BeautyMatch supports the authentic look of the floor and makes the transitions at the narrow top ends of the laminate planks virtually invisible. The decor appearances fit together neatly like perfectly fitted jigsaw pieces.

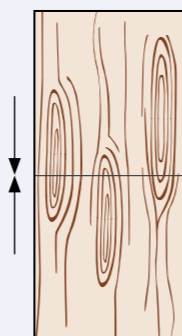

Infinitely long plank floors

Plank floors look like a single visual unit, and so create a perception of extraordinary length – as though they were cut from a single piece of wood.

BeautyMatch

Balanced strip floors

The seamless transitions in the decor appearance give the strip floors an even and balanced appearance. Individual strips appear to be equally long. The floor creates an impression of harmony and rhythm.

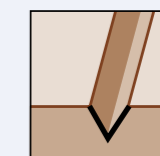

V-joints – finishing touch for special planks

Many plank floors in the laminate range from ter Hürne feature a discrete, V-shaped joint that gives the floor a special character.

Two-sided joint

The two-sided joint emphasises the typical longitudinal effect of a plank floor.

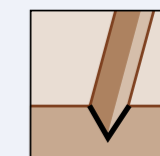

2-sided

Four-sided joint

The four-sided joint emphasises the narrow form of the short plank on all sides.

4-sided

ClickitEASY – the most convenient type of installation

The patented CLICKitEASY connection with the ingenious door-lock principle truly lives up to its name: click the top edges of the planks together with gentle pressure, and the CLICKitEASY spring locks the planks securely and easily like a door lock.

Simply beautiful floors with plenty of safety.

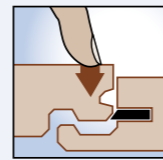

Installing CLICKitEASY brings genuine advantages:

- Particularly convenient and simple assembly
- Extremely quick and clean installation
- Installation without any hammers or tapping block
- No material damage
- Strong connections at the top and longitudinal edges
- Easy removal, should it ever prove necessary

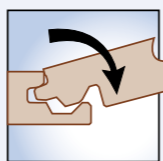

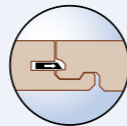

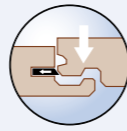

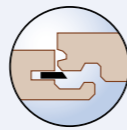

ClickTec

The ClickTec installation system also permits a glue-free and tool-free installation. The self-aligning planks ensure an extremely stable connection that is immediately ready for use.

A detailed manual and other useful tips on the installation can be found at www.terhuerne.de.

CLICKitEASY

ClickTec

AkusTec – the 2.5 mm-thick cushion

Peace and relaxation are key elements in the quality of life: the innovative and compact AkusTec mat provides considerable sound insulation. Not only the sound that is generated in the room itself (footfall sound), but also noise that can be heard in the room below (impact sound).

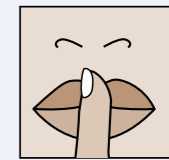

Living comfort that you cannot see, but certainly enjoy.

The unsurpassed 3-stage effect of AkusTec

1. Footfall sound is noticeably reduced
2. The sound becomes deeper and so easier on the ear
3. Echoes and walking vibrations are suppressed

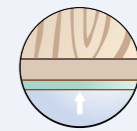

The AkusTec mat is a 2.5 mm-thick fibre layer (see illustration), which is finished by a special paper. This combination is applied together directly to the underside of each individual plank. The effect: a clearly audible difference and so a low-noise, pleasant feeling of home comfort.

Incidentally, AkusTec is also suitable for underfloor heating and extremely renovation friendly.

AkusTec

- 50 % less footfall sound
- 30 % less impact sound

AntistaTec and WaterProTec – for calm relaxation anywhere in your home

Everyone is familiar with the situation: gripping the door handle or any other metal object leads to an unpleasant surprise. There is a sudden discharge of electric voltage. With AntistaTec floors from ter Hürne, you can drastically reduce this risk.

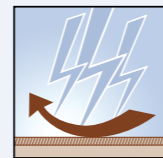

A graphite layer under the decor paper suppresses the static charge. And because it is not exposed to direct wear, AntistaTec is effective for the entire life of the floor.

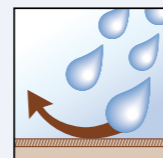

Every floor comes regularly into contact with both water and moisture. The WaterProTec quality ensures that water does not penetrate the floor.

ter Hürne laminate floors are based exclusively on highly compressed HDF base boards with a particularly high protection against swelling.

AntistaTec

WaterProTec

Quality – not just a word

The well-being and health of residents are fixed components of the corporate philosophy of ter Hürne. Products from ter Hürne are therefore not only high-quality, functional and durable, but are also harmless in health terms and environmentally friendly.

Quality therefore always stands for our responsibility towards both people and the environment.

Abrasion classes

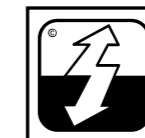

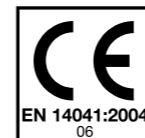

All ter Hürne laminate floors are ranked in the highest abrasion classes AC4/32 and AC5/33 according to DIN 13329. We therefore guarantee quality that lasts.

Certificates

All products from ter Hürne are regularly tested by independent institutions for health and ecological concerns and quality standards and then awarded certificates.

Safety through product monitoring.

Non-slip, flame-resistant and anti-static – in selected decors.

Skirtings – wide selection of shapes and colours

A perfect floor is the sum of several different details. The skirtings in particular add the finishing touch to the overall impression. ter Hürne supplies a comprehensive selection of skirtings in real-wood or decor designs to suit every decor. The variation of colours, shapes and wood types permits the ideal transition between the wall and the floor.

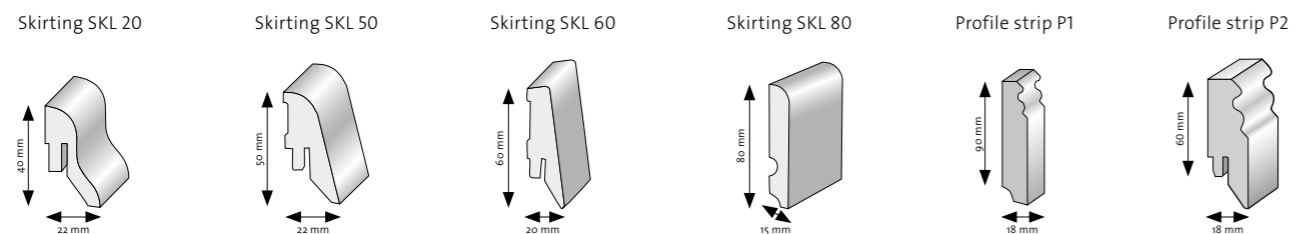

Skirting for decor wild cherry cinnamon red.

Skirting for decor walnut multistripe.

Every floor can find its counterpart in a perfectly matching colour with a coordinated skirting from ter Hürne. The intelligent clip technology also makes the assembly particularly easy. Cables positioned behind become completely invisible. And, if necessary, the skirtings can easily be removed again.

Find out all you need to know about the extensive Accessories range at your local authorised dealer.

LED floor lights – a discreet statement

See your floor in a new light. A lighting system integrated into the floor brings out the best in any room with a unique lighting ambience. LED floor lights from ter Hürne will help your rooms to make such special statements.

Genuine highlights for every floor.

The installation of flat LED lights with surfaces made of safety glass allows you to position the lights anywhere in the room. The shock-resistant lights – either round or square – are cased in equally attractive stainless-steel housings and can easily withstand even heavy loads. The current consumption is extremely low and economical at 1.2 Watt.

The colour interplay of the round lights can be selected using the various different films. They can be exchanged as you wish. Incidentally, the LED lights are suitable for use with all floor products from ter Hürne.

Enjoying moods

We experience the world in the mirror of our moods. The way in which we live reveals something about us. We not only furnish our homes, but also strive to express our attitude to life, searching for the basic mood in which we experience the world. The ter Hürne laminate floor range translates this concept with the theme of “moods” into totally independent living and style worlds.

Every “mood” stands for an attitude to life, which also characterizes a specific furnishing style.

Harmonious, bright and relatively cool colours evoke different images in us from strong contrasts or warm colour shades. A natural joie de vivre or cool freshness, romantic elegance or modernistic reason, a playful lightness or a fiery temperament:

the design of the floors works its special fascination and unique quality in the mirror of the mood worlds. Immerse yourself in this selection and give your moods free rein!
